KAPELEBYONG

Press release

May 31, 2021

The government of Uganda through ministry of defence recently launched a fresh disarmament program in Karamoja due to increasing cases of insecurity especially cattle thefts and raids in Karamoja and Teso.

With the call for maximum cooperation by Karamoja leadership to its neighbours, Kapelebyong security team strongly advises local cattle traders to be careful and vigilant while trading animals.

Following the illicit cattle trade, our security team strongly advises Kapelebyong local traders and residents to ensure that there is appropriate documentation of all traded animals.

Note that the LC5 chairperson, Francis Akorikin calls the public not to give thieves market in Kapelebyong because our district security will impound any stolen animals that may be found in Kapelebyong.

We value our people and do not want them to lose hard-earned capital by engaging in buying stolen cows.

Let's work together to make Kapelebyong a district of progress.

Thanks
